Wooden Pallet
1200mm x 800mm

CHEP
A Brambles Company
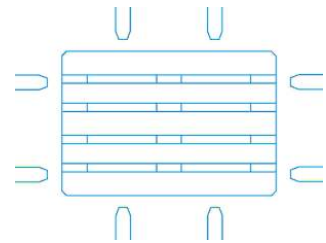

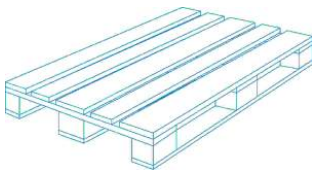

Overview

The 1200mm x 800mm CHEP pallet is a general purpose platform that can be safely used for most applications in the distribution and transportation of goods and products throughout Continental Europe.

To ensure compatibility with different supply chain requirements, pallets are available in three standard sizes.

Features and Benefits

Reduce product damage and increase load stability through robust construction

Increase operational productivity through consistent specification – pallet is suitable for automated production and warehousing facilities

Enhance efficiencies during storage and transport with consistent 4-way entry design ensuring compatibility with all standard equipment

Reduce health & safety risks to the workforce – quality materials ensure pallets can be handled safely

Specifications

Dimensions - in millimeters

	Length	Width	Height
External	1200	800	144

Window / Pallet entry - in millimetres

	Width	Height
1200 mm side	383.0	100.0
800 mm side	228.0	100.0

Nominal Capacity and Weight

Tare Weight	25 kgs

Configuration and Stacking

CHEP recommends a maximum rating of 1000 kgs as a safe working load, and not to exceed 4000 kgs when stacking loaded pallets on a solid surface. Empty pallets can be stored 40 high.

Notes

Materials

Wood: quality timber from a controlled selection of different wood types

Paint: water based, complying with the relevant European legislation

Nails: either standard or stiff stock wire, complying with the European legislation on heavy metal content

Handling

Maximise the use of the pallet surface
Minimise lifting from the undersides of the skids
Rack the pallet across the long side

Performance and Standards

A general purpose pallet that can be safely used for most applications in the distribution and transport chain in Europe.
