

# Overview

## Introducing the Automotive IcoQube range

The IcoQube is a first-class packaging solution for intercontinental transport. It comes in multiple foldable sizes specifically designed to maximise sea container capacity, therefore increasing component volume delivery whilst saving transport costs. The IcoQube has a four-way access system for forklift trucks, two folding lids for simple filling and emptying and is RFID compatible.

## **Features and Benefits**

### Features

Made from strong, lightweight material for increased handling efficiency

Best in class folding ratio

Dual latching lids increase product protection

All components interlock for maximum stability

### Benefits

Four-way forklift access

RFID-compatible across the range

Full range is moisture resistant, reusable and sustainable

## **Specifications**

Dimensions - in millimeters				
External Internal	<b>Length</b> 975 943	Width 770 733	<b>Height</b> 746 557	
Nominal Capacity	and Weight			
Maximum capacity Maximum load weight Tare Weight		380	380 ltrs 0.38 m3 250 kgs 16.5 kgs	
Configuration and	d Stacking			
Stacked layers in Stacked layers for Return ratio	n	3 4 6.7 :1		

 $40^{\circ}$  high cube sea container can hold 108 units when loaded, and 720 units when empty
