Overview

The Multi Purpose Beverage Tray creates a one touch merchandising solution to significantly reduce labour costs associated with hand stacking shelves.

The tray is configured to carry 1.25 litre carbonated beverages in 24 bottle configurations.

It can be used in fully automated packing systems, is lightweight, stable and protects drink bottles in transit. It is modular to CHEP Retail Display Pallets in single or double module configuration. The Australian Wooden Pallet also holds 6 drink modules and provides a number of retail display options.

Features and Benefits

- Suitable for use with 1.25 litre carbonated beverage bottles
- Smart design ensures load stability, bottles are secured at the base and closure points
- Allows for efficient replenishment in-store and reduces out-of-stocks
- Non-porous surface protects goods from contamination
- Lightweight at just over 1 kg per tray
- Enables one touch movement from production line to retail display
- Reduced handling lowers the risk of product damage through the supply chain
- Increased transportation yield delivered with 5 layer stacking configuration
- Modular to CHEP Retail Display Pallets and Australian Wooden Pallets
- Low profile stacking when empty allows for improved transport and storage efficiency
- 100% recyclable, eliminating costly 1-way cardboard packaging
