

# Wooden Pallet

1200mm x 800mm

## Overview

The 1200mm x 800mm CHEP pallet is a general purpose platform that can be safely used for most applications in the distribution and transportation of goods and products throughout Continental Europe.

To ensure compatibility with different supply chain requirements, pallets are available in three standard sizes.

## Features and Benefits

Reduce product damage and increase load stability through robust construction

Increase operational productivity through consistent specification – pallet is suitable for automated production and warehousing facilities

Enhance efficiencies during storage and transport with consistent 4-way entry design ensuring compatibility with all standard equipment

Reduce health & safety risks to the workforce – quality materials ensure pallets can be handled safely

## Specifications

Dimensions - in millimeters			
	Length	Width	Height
External	1200	800	144
Window / Pallet entry - in millimetres			
	Width	Height	
1200 mm side	383.0	100.0	
800 mm side	228.0	100.0	
Nominal Capacity and Weight			
Tare Weight			25 kgs
Configuration and Stacking			

CHEP recommends a maximum rating of 1000 kgs as a safe working load, and not to exceed 4000 kgs when stacking loaded pallets on a solid surface. Empty pallets can be stored 40 high.

## Notes

Materials
<b>Wood:</b> quality timber from a controlled selection of different wood types
<b>Paint:</b> water based, complying with the relevant European legislation
<b>Nails:</b> either standard or stiff stock wire, complying with the European legislation on heavy metal content
Handling
Maximise the use of the pallet surface
Minimise lifting from the undersides of the skids
Rack the pallet across the long side
Performance and Standards
A general purpose pallet that can be safely used for most applications in the distribution and transport chain in Europe.
