

Overview

The pallet cover is light and impact resistant. It comes equipped with seat belts to wrap around the load and lock into the pallet for greater load stability

Features and Benefits

Design for Unit Load

Protects unit load from external contamination and secures the top of the unit load for banding

Inter-Lock design with CHEP pallet

Specific inter-locking design with the CHEP pallet guarantees stability and safety during transportation and storage

Easy Handling

Increase banding convenience and accuracy by a reserved banding space
Easy orientation during stacking process by special design

Materials Fully Recyclable

Reduces waste and benefits the environment

Specifications

Dimensions - in millimeters			
	Length	Width	Height
External	1205	1007	80
Nominal Capacity and Weight			
Tare Weight			9.5 kgs
Temperature Range			
Minimum / Maximum			-20 °C / 50 °C

Notes

Materials
Polypropylene
Options and Accessories
Pallet lid (CHEP Code LID1210C)
