

Perimeter Wooden Pallet

1200 x 1000 mm

Overview

The 1200 x 1000 mm Wood Perimeter Pallet is ideal for the storage and transport of goods in many industries including Consumer Goods, Beverage, Produce, Hardware, Electronics and Automotive industries.

Its 4-way entry design offers greater efficiencies during transportation and storage.

Features and Benefits

Reduce product damage and increase load stability through robust construction

Increase operational productivity through consistent specification – pallet is suitable for automated production and warehousing facilities

Enhance efficiencies during storage and transport with consistent 4-way entry design ensuring compatibility with all standard equipment

Reduce health & safety risks to the workforce – quality materials ensure pallets can be handled safely

Specifications

Dimensions - in millimeters

	Length	Width	Height
External	1200	1000	154

Window / Pallet entry - in millimetres

	Width	Height
1200 mm side	350.0	89.0
1000 mm side	345.0	114.0

Nominal Capacity and Weight

Tare Weight	28 kgs
-------------	--------

Configuration and Stacking

CHEP recommends a maximum rating of 1200 kgs as a safe working load and not to exceed 4800 kgs when stacking load pallets on a solid surface
Empty pallets can be stored 40 high.

Notes

Materials

Wood: quality timber from a controlled selection of different wood types

Paint: water based and complies with the relevant Indian legislation

Nails: either standard or stiffstock wire and complies with the Indian legislation on heavy metal content

Handling

Maximise the use of the pallet surface
Minimise lifting from the undersides of the skids
Rack the pallets under the outside blocks
