

Overview

The Pallecon iCONIC has been specifically designed to move products intercontinentally as efficiently and sustainably as possible. Suitable for the transportation of dry and liquid products, the iCONIC features four-way pallet access and a sloped pallet base to allow for maximum product decant with minimal residual waste. The CHEP Pallecon iCONIC product code is 4440.

Features and Benefits

Capacity for aseptic liners to hold up to 1040l of product

Large drop doors, easy-access valve operation and sloped pallet base for efficient fill, decant and handling

Stainless steel pallet corner reinforcement ensures container durability

Optional sight glass for product level check

Tamper-evident facility locks from cover to base

Highly durable and suitable for multiple uses

Optimised storage - up to 20% additional product per pallet space compared with drums

Allows up to 100% additional product storage when stacked

Fast and more efficient fill and decant process compared with drum or bottle-in-cage packaging

Can be stacked up to 7 units high to maximise warehouse storage space and transportation efficiency

Manufactured from fully recyclable materials to create a sustainable product

Specifications

Dimensions - in millimeters

	Length	Width	Height
External	1200	1000	1180
Folded	1200	1000	375

Nominal Capacity and Weight

Maximum capacity	1040 ltrs
Maximum load weight	7500 kgs
Tare Weight	103 kgs

Dynamic Load: 3000kg

Configuration and Stacking

Stacked layers	3
----------------	---

Return (7 Stack): Dimensions 1200mm x 1000mm x 2625mm

Tare Weight: 824kg

Temperature Range

Minimum / Maximum	-20 °C / 40 °C
-------------------	----------------

Notes
