

Pallet Collar and Lid

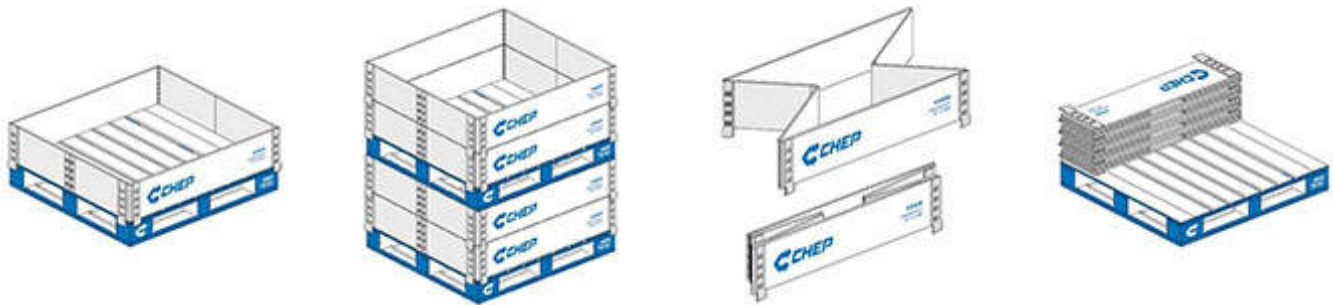

for 1200 x 800 mm Pallet

Overview

The CHEP Collar and Lids convert pallets into stackable containers for small, mixed or fragile loads,

They provide a robust packaging solution that protects products and handles awkward loads with ease.

Stackable up to 1.4 metres high and foldable to optimise storage and transportation. The lids can also act as shelving.

Features and Benefits

Achieve a flexible, multi-purpose storage solution that converts pallets into stackable containers that protects products and is height adjustable up to 1400 mm high by stacking 7 collars [200mm]

Provide enhanced protection for heterogeneous and fragile merchandise during warehousing, transportation and delivery through robust construction

Reduce storage costs and optimise space usage – height of container walls can be adjusted and collars fold flat for easy storage

Realise a fully flexible handling solution by forklift or pallet trolley as Collars and Lids are constructed to fit standard pallet specifications

Enhance efficiencies during storage and transport with consistent 4-way entry design ensuring compatibility with all standard equipment

Specifications

Dimensions - in millimeters

	Length	Width	Height
External	1200	800	200
Internal	1156	756	200

Nominal Capacity and Weight

Maximum capacity	175 ltrs
Tare Weight	8.5 kgs

The optional lid weighs 6.5 kgs

Configuration and Stacking

Maximum number of collars per pallet - 7

Notes

Materials

Wood: quality timber from a controlled selection of different wood types

Hinges: galvanised steel and comply with the European legislation on heavy metal content

Performance and Standards

Collars and Lids convert pallets into stackable containers for small, mixed or fragile loads
