

Overview

Protective dust cover for CHEP FLC 121097 and 121060

Features and Benefits

Achieve superior product protection as the cover is manufactured from shatterproof High Density Polyethylene or Polypropylene

Ensure components are shielded from external contamination as the dust cover is designed specifically to fit CHEP FLCs

Reduce environmental impact and remove waste material from the supply chain with fully recyclable materials

Specifications

Dimensions - in millimeters

| | Length | Width | Height |
|----------|---------------|--------------|---------------|
| External | 1190 | 913 | 40 |

Nominal Capacity and Weight

| | |
|-------------|---------|
| Tare Weight | 3.5 kgs |
|-------------|---------|

Temperature Range

| | |
|-------------------|----------------|
| Minimum / Maximum | -20 °C / 40 °C |
|-------------------|----------------|

Notes

Materials

HDPE or Polypropylene, blue All materials are recyclable

Handling

Should be kept with the FLC in normal circumstances but may be stored 60 high on a 1200x1000 mm pallet. The CHEP dust cover is not load bearing.

When fitting the dust cover to the FLC, care should be taken to ensure the lugs locate in the base or sidewall.
