

UK Pallet

B1210A timber

1,200 x 1,000mm

Description

This general-purpose, reusable wooden pallet is ideal for the loading, distribution and display of goods. It is pooled and serviced throughout CHEP's network of service centres, helping to increase efficiency and the sustainable use of natural resources across the supply chain.

Features and benefits

Robust block construction

- + Strength for the safe handling of heavy loads
- + Durability for consistent performance during handling, transport and pooling across the supply chain

Consistent quality

- + Dimensional accuracy makes it suitable for automated production, packaging and warehousing processes, minimising product damage and reducing downtime
- + Every pallet is carefully inspected and serviced to deliver improved conditions for health and safety

Colour coded blue

- + The distinctive CHEP blue colour ensures that our pallets can be easily identified

Equipment compatibility

- + Can be used with all standard handling equipment

Environmentally friendly

- + CHEP's pooling network reduces packaging waste and the overall impact on the environment
