

Half-Size Euro Display Platform

P0806A plastic

800 x 600mm

Description

General-purpose, reusable plastic pallet for the loading, distribution and display of goods. Easy to replenish, this pallet is pooled and serviced throughout CHEP's network of service centres, improving hygiene and efficiency across the supply chain and promoting a more sustainable use of natural resources.

Features and benefits

Robust integral construction

- + Honeycomb top surface provides additional strength at lower weight for safe handling of valuable loads
- + No nails, sharp edges or splinters and therefore no risk of loose components. Improves conditions for product integrity across the supply chain
- + Single-piece injection moulding with strong structural integrity makes repairs virtually unnecessary

Offers the highest hygiene standards

- + Water-resistant for easier cleaning
- + Smooth surfaces and the absence of dead pockets mean no moisture, dust or liquid build-up. The risk of cross-contamination is reduced, making this a suitable pallet for applications that require high hygiene standards.

Environmentally friendly

- + CHEP's pooling network reduces packaging waste and the overall impact on the environment

Warning: Please DO NOT rack across pallet width. Preliminary testing is recommended on each automated or gravity pallet handling system due to the bespoke nature of each technical set up. CHEP does not recommend the use of this pallet in direct contact with unpacked foodstuffs.

Specifications

DIMENSIONS AND TOLERANCES (mm)						
Detail	A	B	C	D	E	F
Nominal	800	160	248	600	96	239
Minimum	795	155	243	595	89	234
Maximum	805	165	253	605	99	244

Materials and compliance

Made of strong recycled or virgin polypropylene (PP) with integrated steel core. Product and/or components comply with ISO 8611, ISO 527 and ISO 179 standards.

Handling

Average weight

Stacking

Maximum loading capacity (dynamic)

Access

Do not use glue or staples

Temperature range

Ideal for in-store display

- + Boosts sales and brand recognition thanks to higher product visibility and improved availability
- + Reduces overall cost for displayed product thanks to easy replenishment and minimal product damage
- + Increases brand exposure and revitalises low-performing shelf zones, while maximising product sales across the facing area

Consistent quality

- + Dimensional accuracy makes it suitable for automated production, packaging and warehousing processes, minimising product damage and reducing downtime
- + Every pallet is carefully inspected and serviced to deliver improved conditions for health and safety

Equipment compatibility

- + Fully compatible with crates and trays from CHEP and sister company IFCO, providing a total plastic system
- + Can be used with all standard handling equipment
- + Four-way entry for easy access from multiple sides

Colour coded blue

- + The distinctive CHEP blue colour ensures that our pallets can be identified easily

Important: CHEP pallets and containers always remain the property of CHEP and can never be legally bought or sold. CHEP reserves the right to change any of the above information without prior notice. To find out more, please visit www.chep.com
