

ECR Standard Pallet

1200 x 1000 mm

Overview

The extensive use of CHEP's ECR standard pallet across Malaysia provides the basis for low cost and seamless movements within and between customer supply chains.

Our hire pallet service also benefits customers through our acceptance of responsibility for maintaining pallet quality standards, and our commitment to ensuring the availability of pallet stocks to meet our customer needs.

Managing these issues for our customers means they can focus on their core business activities such as product manufacturing, transport, distribution and warehousing services.
