Overview

Introducing the Automotive IcoQube range

The IcoQube is a first-class packaging solution for intercontinental transport. It comes in multiple foldable sizes specifically designed to maximise sea container capacity, therefore increasing component volume delivery whilst saving transport costs. The IcoQube has a four-way access system for forklift trucks, two folding lids for simple filling and emptying and is RFID compatible.

Features and Benefits

Features

Made from strong, lightweight material for increased handling efficiency

Best in class folding ratio

Dual latching lids increase product protection

All components interlock for maximum stability

Benefits

Four-way forklift access

RFID-compatible across the range

Full range is moisture resistant, reusable and sustainable
