

Black Foldable Bin

1200 x 1000 mm

Overview

Foldable, reusable plastic bin that can provide substantial savings in transport costs and reduce the storage space required for bulk distribution.

Incorporated in the design is a drop down door to provide safer, easier access when loading or unloading the bin.

Features and Benefits

- OSH friendly design
- Fully vented
- Foldable design
- Strong, robust design
- Easy to assemble and disassemble
- Drop down door
- Fully recyclable food grade plastic
- Reduced transport costs when empty
- Significantly reduced storage requirements
- Enhanced load stability
- Easily integrates into existing supply chains
- Safer and easier access to the bin
- Extra capacity reduces produce damage whilst also lowering the per KG cost of packaging

Specifications

Dimensions - in millimeters

	Length	Width	Height
External	1200	1000	805
Internal	1120	920	660
Folded	1200	1000	298

Nominal Capacity and Weight

Maximum capacity	720 ltrs
Maximum load weight	500 kgs
Tare Weight	46 kgs

Temperature Range

Minimum / Maximum	23 °C / 50 °C
-------------------	---------------

Notes

Materials

Food grade HD Polyethylene UV stabilised non-toxic

Handling

Do not exceed the recommended load weight of 500kg as overfilling could result in collapse of the bin.

When stacking, ensure the bins are well nested onto one another and resting on an even, level surface with no holes.

When moving the bins with a forklift, keep the forks at maximum width to avoid lateral tipping.

Avoid hitting the bins with the forklift forks or forcing the bins against walls or other fixed objects.

Forklift forks should be equal to 90% of the width of the bin to ensure the load is steady and won't topple over.

Folded bins should not be overturned or dropped and must be handled with appropriate equipment.

Recommended Use / Applications

Bulk and pre-packed produce distribution such as potatoes, apples, onions, watermelon, pumpkin and squash.
