

**Overview**

A reusable highly durable plastic folding Security Container for the packaging of all types of products.

**Features and Benefits**

- Highly durable and suitable for multiple use.
- Easy to operate – single operator can erect or fold down in 30 seconds.
- Folds down flat and packs 5 into 1 pallet space for efficient storage and transportation when empty.
- Stacks up to 5 units high when full making the product efficient to store.
- Three alternative sizes to meet specific customer requirements.
- Component parts are made from materials that are easy to replace and repair.
- Manufactured from fully recyclable materials making the product good for the environment.
- 4 way pallet entry, 40mm foamed HDPE.

**Specifications**

| Dimensions - in millimeters |        |       |        |
|-----------------------------|--------|-------|--------|
|                             | Length | Width | Height |
| External                    | 1200   | 1000  | 1200   |
| Folded                      | 1200   | 1000  | 406    |

  

| Nominal Capacity and Weight |  |           |
|-----------------------------|--|-----------|
| Maximum capacity            |  | 1020 ltrs |
| Maximum load weight         |  | 2000 kgs  |
| Tare Weight                 |  | 75 kgs    |

  

| Configuration and Stacking          |  |       |
|-------------------------------------|--|-------|
| Stacked layers in transit when open |  | 5     |
| Return ratio                        |  | 5 : 1 |

  

| Temperature Range |                |
|-------------------|----------------|
| Minimum / Maximum | -20 °C / 40 °C |

**Notes**

- Materials**
- Pallet: Black HDPE
  - Panel: Grey HDPE
  - Lid: Black HDPE
- Recommended Use / Applications**
- Automotive** – Components, spare parts, exhaust pipes, engines, filters, tyres, wheels and wheel trims, dealer supplies/returns, pressings, mouldings, wiring looms, rubber mouldings, air bags.
