

Automotive

Unit load lid for 1000 x 600 mm Pallet

Overview

A durable, stackable, recyclable plastic unit load cover for the 1000 x 600 mm pallet. Designed to German VDA (Verband der Automobilindustrie) specification.

Features and Benefits

Ensure components are shielded from external contamination as cover fits over KLT load and secures the top of the unit load for banding

Minimise product damage as cover is manufactured from impact resistant Polypropylene

Reduce environmental impact and remove waste material from the supply chain with fully recyclable materials

Specifications

Dimensions - in millimeters

	Length	Width	Height
External	1006	609	53

Nominal Capacity and Weight

Tare Weight	5 kgs
-------------	-------

Temperature Range

Minimum / Maximum	-30 °C / 60 °C
-------------------	----------------

Notes

Materials

Polypropylene, blue to RAL 5012

Handling

Should be banded in place on top of a unit load comprising of RKL 3215 only
