

Overview

Features and Benefits

Durable Design

Reduces damage to product and packaging

-Hygienic Platform

Eliminates splinters and nails
No moisture absorption
Easy to clean
Suitable for many goods, including packaged food and Beverages
Highly stable, UV resistant, highest quality plastics

-Consistent Specification

Ideal for high speed automated systems
Constant weight and dimensions
Compatible with existing materials handling systems

-Fully Recyclable

Materials can be easily separated for recycling
Reduces waste and benefits the environment

Specifications

Dimensions - in millimeters

	Length	Width	Height
External	1000	1200	200

Nominal Capacity and Weight

Maximum load weight	1250 kgs
Tare Weight	3.25 kgs

Temperature Range

Minimum / Maximum	-20 °C / 50 °C
-------------------	----------------

Notes

Materials

High quality HDPE

Handling

Can be used with all materials handling equipment designed for 1200 mm x 1000 mm perimeter pallets
