

**Overview**

The CHEP Pallecon Solutions Unicon is a universal container with a multitude of applications.

Engineered features include a hinged folding design, sight glass front panel, a total discharge sump, which lowers the discharge level below the floor of the unit for minimum wastage, an access door on the front of the unit and ISO compatible size for general purpose shipping containers.

The Unicon also allows for standard two inch bag fitments or three inch for high viscosity liquids.

Like all CHEP liquid containers, the Unicon can deliver significant savings in transport, storage and packaging costs compared to drums and other one way liquid packaging types.

A range of accessories and liquid bags are readily available to suit various liquid applications.

**Features and Benefits**

**Innovative design**

Sight glass on front panel shows user how much product is in the unit  
Cubic design allows for efficient storage and transport  
Front door half-gate allows for easy access  
Lightweight lid is user friendly and supports Occupational Health and Safety standards  
ISO compatible size makes unit convenient for domestic or international shipping

**Maximum product, minimum waste**

Tilting base assists decant of high viscosity products, minimizing waste  
Low discharge outlet and sump minimises residual product and waste  
2 or 3 inch bag fitments allow for easier discharge of high viscosity liquids

**Environmentally friendly**

Pooling system reduces waste and benefits the environment  
Long life asset ensures minimum demand on scarce environmental resources

**Food grade**

HDPP panels and steel base and frame make the unit perfect for use in food grade environments

**Specifications**

**Dimensions - in inch**

	Length	Width	Height
External	46.1	43.4	43.4
Internal	43	40.2	37.2
Folded	46.1	43.4	13.9

**Nominal Capacity and Weight**

Maximum capacity	229 (UK) glns
Maximum load weight	3306.9 lbs
Tare Weight	326.3 lbs

**Configuration and Stacking**

Stacked layers in transit when open	5
Stacked layers in transit when folded	15

**Notes**

**Materials**

HDPP plastic panels, steel base and frame

**Recommended Use / Applications**

Ideal for the transportation of: fats & oils, glucose, liquid sugar, syrups, dairy, malt extracts, mayonnaise, wine, pharmaceutical and other food ingredients

**CHEP Code**

04113 - Unicon
