

# Pallecon ComboPro

## Nestable Bulk Meat Bin

# CHEP

A Brambles Company

### Overview

The CHEP Pallecon ComboPro is a more durable and cost-effective way to ship your bulk meat products. With a low tare weight and nestable design, this reusable container offers a greener and more reliable solution than traditional corrugated options.

### Features and Benefits

- Cost effective: Low tare weight and nestability make the ComboPro very competitive with traditional expendable combo bins
- Improved hygiene: Elimination of ribs, pockets, crevasses, hinges and rough surfaces allow for a high level of hygiene
- Simple to use: Integrates seamlessly with existing dump equipment
- Secure: Durable design and construction provides better product protection
