

**Overview**

The CHEP Pallecon ComboPro is a more durable and cost-effective way to ship your bulk meat products. With a low tare weight and nestable design, this reusable container offers a greener and more reliable solution than traditional corrugated options.

**Features and Benefits**

**Cost effective:** Low tare weight and nestability make the ComboPro very competitive with traditional expendable combo bins

**Improved hygiene:** Elimination of ribs, pockets, crevasses, hinges and rough surfaces allow for a high level of hygiene

**Simple to use:** Integrates seamlessly with existing dump equipment

**Secure:** Durable design and construction provides better product protection
