

Bearer Pallet

1200x1200mm

Overview

The 1200x1200mm wooden pallet is designed for the unit load handling and storage of heavy products in static and captive distribution applications. Used primarily for the safe transport of drums in the fruit juice and oil lubricant industries, the pallet holds four 200 litre drums perfectly.

Features and Benefits

Industry Compatible

The CHEP 1200x1200mm 2-way entry pallet is designed for the unit load handling and storage of heavy products in static and captive distribution applications. Ideal for bulk drum products in the fruit juice concentrate/oil lubricant industries, with four 200 litre drums fitting perfectly onto the pallet. This pallet is also utilised by the milling industry for the handling of certain bagged products.

Consistent Specification

Increases operational efficiency. Manufactured from selected timber to strict specifications.

Robust with no compromise on quality.

Leading edge slats are butted to the adjacent second slats, thereby providing exceptional strength.

Environmentally Friendly

100% recyclable materials.

Upon return to CHEP every pallet is inspected and any damaged elements replaced to ensure that only top quality pallets are available for use.
